

BLUEPEAK'S FASTER, MORE RELIABLE INTERNET NOW AVAILABLE TO ENID, OKLAHOMA RESIDENTS AND BUSINESSES

Fiber Internet Provider Offers Up To 5 Gigabits of Symmetrical Bandwidth from its State-of-the-Art Fiber Network to Residences

ENID, Okla. | April 4, 2022 – Bluepeak, an innovative internet provider, announced today that it has launched service in Enid, Oklahoma providing homes and businesses access to faster speed, better connectivity and greater power to sync more devices through Bluepeak's fiber internet offering. Bluepeak began installing new customers on Friday.

"The city of Enid has been a great partner and the community has welcomed our fiber-to-the-home network expansion with open arms," said Rich Fish, Bluepeak's CEO. "We're excited to begin bringing faster, more reliable internet service here to connect people and create access and opportunity."

Bluepeak is designed to provide the best fiber connection without the things that get in the way of great service — like red tape, hidden fees and slow response times. From equivalent upload and download speeds to bandwidth that keeps up with every device and whole-home WiFi, Bluepeak offers lightning-fast fiber internet services and flexible TV offerings that allow customers to choose the speeds and options that best align with their lives.

"I am thrilled that the city is able to work with Bluepeak to provide a great high-speed fiber-to-the-home option for our residents," said Mayor of Enid George Pankonin when the company broke ground on the network expansion in October.

Bluepeak Internet

Providing the fastest symmetrical speeds in the market, Bluepeak internet features the latest whole-home WiFi technology to enhance coverage, reliability and security. Every tier includes eero Secure, which protects devices from online threats, ads, and allows for customized content filtering.
