

## BLUEPEAK TO BRING A FASTER, MORE RELIABLE INTERNET TO ST. JOSEPH, MISSOURI

*Bluepeak Will Offer Affordable, High-Speed, Fiber Internet in Six States.*

**(ST. JOSEPH, Mo.) July 13, 2022** — Bluepeak is expanding to the Show-Me State.

The internet provider announced today a franchise agreement with the state of Missouri and plans to bring its advanced fiber-to-the-home network initially to the city of St. Joseph. The roughly \$36 million expansion effort will bring Bluepeak service to nearly 36,000 residences and businesses in the community.

“Fast, reliable, affordable broadband connectivity is increasingly important for everyday life and economic development,” said Rich Fish, CEO of Bluepeak. “We’re thrilled to partner with the state of Missouri and St. Joseph to help meet their growing internet needs today and in the future.”

According to [Broadbandnow.com](https://www.broadbandnow.com), Missouri ranks 39th in the nation in internet coverage, speed and availability. Moreover, [a 2021 report by the Missouri Department of Economic Development](#) found the Show-Me State ranks in the bottom five in the nation for access to low-cost internet, while 23 percent of students in the state do not have access to high-speed internet.

“Broadband in St. Joseph can be a challenge, and we look forward to giving our community more options,” said Abe Forney, St. Joseph’s Public Works & Transportation Director.

That’s where Bluepeak comes in. With its service, customers get faster speed, equal upload and download speeds, and whole-home WiFi. Bluepeak features all-in pricing, where the price on the website is the price on the bill, with a minimum service tier of 1 gigabit-per second (Gbps) for just [\\$50 per month](#). Homes can get up to 5 Gbps and businesses 10 Gbps. Each internet speed package includes [eero Secure](#), which protects devices from online threats, ads and allows for customized content filtering. Bluepeak’s network provides faster speeds, better connectivity, and the bandwidth to connect more devices for internet, streaming, gaming and more.

Bluepeak is designed to provide the best fiber connection without the things that get in the way of great service — like red tape, hidden fees and slow response times. In addition, Bluepeak is dramatically improving the options for residents in Oklahoma, Wyoming, South Dakota, North Dakota, Minnesota, and now Missouri by providing fast, reliable, affordable internet to communities like St. Joseph.

Those in St. Joseph looking for more information can visit [mybluepeak.com](https://mybluepeak.com). Residents and businesses interested in service availability or details on the construction process can sign up for updates by entering their service address at [mybluepeak.com](https://mybluepeak.com).

### **About Bluepeak**

Bluepeak is building a faster, more reliable internet without the things that get in the way of great service—like red tape, hidden fees, and slow response times. Offering up to 5 gigabits of speed for residential customers and 10 gigabits for businesses, Bluepeak is a whole new ballgame — from internet to TV, to connecting every device in a home, to powering a business, Bluepeak not only provides the best fiber connections in the communities it serves, but also meets the growing needs for how its customers live.
